

## QUALITY POLICY of ARIAKE GROUP

As the leading manufacturer in the field of natural seasonings, the Ariake Group has anticipated customer needs and strived to maintain and ensure "food safety" and "high quality" while working to expand existing businesses both within Japan and overseas and to actively develop new businesses

Our aims are following:

- Contribute to the global food culture through fully automated production, research and development.

1. Ariake Group will strive to contribute towards the development of a bountiful food culture as an eternal theme for mankind, and to become a company making far-reaching contributions around the world through the production of valuable natural seasonings.

2. With the philosophy of placing the customer first and with a challenging spirit, Ariake Group will endeavour to do the best in sales, with genuine intentions and in good faith, responding to various needs of the times by striving for a more economical, quicker and more accurate production.

- Ariake Group, as a leading natural seasonings company, provides high quality and uniform products by its consistent manufacturing system from raw material procurement to the final product. We also have a complete system of quality and hygiene control, with the entire company focused on "food safety" and "high quality, for which we have gained the trust of customers.
- Ariake will contribute to the society with our basic principle of the harmony between the natural seasoning business and the preservation of global environment.

1. Ariake will promote our operation in every section with less energy, less resources recycling and less waste.

2. Ariake will provide environment friendly products.

3. Ariake will set up the environment target and make the best efforts to attain it through the continual improvement.

4. Ariake will try best to prevent the pollution complying with relevant laws, regulations and other appropriate requirements.

5. Ariake will announce this policy to the public as well as to all the employees and everyone who works for Ariake and call their attention to the environment.

Based on the Company's four basic themes, "Natural," "Healthy," "Safety," and "Convenience," we are actively involved in environmental issues.

FPNI SAS is committed to the quality policy of Ariake Group.
